Sharing & Caring

Print, Memorize and Follow Verbatim

The secret to **sharing and caring is creating abundance** for all.

If you devote your time to solving problems that others face, **your dreams can come true.** You can have everything in life you want if you will just help enough other people get what they want.

By sharing with our friends, we can make the world a better place for you and your family.

Massive action creates massive momentum which creates you a **MBA** (**Massive Bank Account**), so we recommend **calling 3 or more people per day** starting with those in your cell phone contact list. Start with the magical words, "**Hello, how are you, and how is your family?**" Listen to them. They will tell you the good, but they will also tell you their problems. **Use the method of FORM** (**Family, Occupation, Recreation and Money**). Pay close attention to those 4 areas and somewhere they will reveal problems or needs that they have in 1 of more of those 4 areas.

We believe that if you have a solution to any of their problems or needs, **sharing solutions creates a better world.** If their problems or needs are health-related, you can share how **iHeRQles, iRevive and iPatches have helped so many people**, including yourself. If their problems or needs are financially related, you can share how the **Nu Xtrax compassion with compensation plan can help bring abundance** to any person and family.

Follow the 4 Sharing & Caring simple, but very effective steps below with each person. Invite them to join the webinar that you have personally seen and believe can help with their problems.

Let them know there's one going on tonight and let them know that you'll be watching too.

1. A SHARING CALL: Start with the magical words, "Hello, how are you, and how is your family?" Listen to them. They will tell you the good, but they will also tell you their problems. Use the method of FORM (Family, Occupation, Recreation and Money). Pay close attention to those 4 areas and somewhere they will reveal problems or needs that they have in 1 of more of those 4 areas.

2. A CARING TEXT: After your call has ended, text them this message: (Their name), thought this could help.

Then Text them the **graphic from the <u>www.LYNLive.com</u> Sharing & Caring section** or from your back office by clicking on the link in the top left column, copy the graphic of your choice to your photos, and then paste or forward it from your photos in a text.

Text them this link information with **your graphic of choice:**

Go to <u>www.LYNLive.com</u> and click on the "Live Webinars" link to watch TONIGHT. You can also watch TONIGHT at <u>www.Facebook.com/NuXtrax</u>.

3. A COURTESY REMINDER: To strengthen your turn out, text the following reminder 15 minutes before the webinar starts:

Click onto www.LYNLive.com and click onto the "Live Webinars" link to watch NOW or watch NOW at www.Facebook.com/NuXtrax!

I'll be watching as well! Can't wait to hear what you think!

4. A FOLLOW UP CALL TO SHOW YOU CARE ABOUT THEM: Follow-up is everything after the www.LYNLive.com presentation has ended; call them to see what they thought of the presentation. Ask them, "What did you think?" Let them know that this is something that you believe in and how it has helped you. At the end of the conversation, just ask if this is something that they'd like. I'd be more than happy to get it for you. Either send them your Nu Xtrax Website or take their order on a piece of paper and log into your Back Office and go to "Enroll Transformation Affiliate" to enroll them now, so they can immediately start using our exclusive products and experience our extremely lucrative pay plan!

Note: If someone was not able to watch the webinar, then invite them to watch the next one. **Keep inviting them** to the next one until they finally watch one.

If you have any issues or any questions, always reach up to your sponsor, sponsor's sponsor or your upline, National affiliate, or above. By sharing and solving problems for others, we can create better health statistics in America.
